

Rotoplas operations status during July

Grupo Rotoplas, S.A.B. de C.V. (BMV: AGUA*) ("Rotoplas" or "The Company"), the leading provider of water-related products and services in the Americas, communicates the update on the status of its operations during July.

Country or Region	Manufacturing plant and/or distribution center
Mexico	Continuous operations
Argentina	Continuous operations in the water storage and water flow plants. Limited operation in the water improvement plant according to health protocols, equivalent to the closing of 16 days during the month
United States	Continuous operations
Peru	Continuous operations
Central America	Plant in Guatemala maintains continuous operations The distribution center in El Salvador operates continuously The distribution centers in Hondruas and Costa Rica were closed 26 and 14 days respectively Nicaragua maintained continuous operations

The administrative staff continues to work remotely and the operating staff adheres to strict safety and hygiene protocols in the manufacturing plants and in the field service operations.

All activities with stakeholders such as training, loyalty programs, continuous development programs, collaborative innovation, among others, are carried out through digital platforms. Furthermore, the committees in the different plants and the human capital team have started to train employees on the gradual return to the new normal.

Finally, on July 28th Grupo Rotoplas and Longvie signed a strategic alliance for the development of a new line of water heaters in Argentina. This alliance represents a joint innovation project that will offer high technology products at a competitive price.
