

OMA Announces Achievement of its Sustainability Performance Target

Mexico City, Mexico, June 25, 2026— Grupo Aeroportuario del Centro Norte, S.A.B. de C.V., known as OMA (NASDAQ: OMAB; BMV: OMA), announces that the Company has achieved the Sustainability Performance Target ("SPT") associated with its sustainability-linked bonds (certificados bursátiles vinculados a la sostenibilidad) issued under the ticker symbols OMA 22L, OMA 22-2L, OMA 23L and OMA 23-2L.

The STP consisted of reducing Scope 1 and Scope 2 greenhouse gas emissions, measured as kilograms of CO₂ equivalent per passenger (kgCO₂e/PAX), by 58% as of December 31, 2025, compared to the 2018 baseline year. As of 2025, the Company achieved an 88% reduction, exceeding the established target.

This achievement was made possible through the implementation of a strategy based on two key pillars: energy efficiency and the decarbonization of airport operations.

Regarding energy efficiency, OMA has invested in high-efficiency systems, equipment and infrastructure optimization, as well as projects aimed at reducing energy consumption across its airports.

Regarding decarbonization, the Company has implemented initiatives to increase the use of renewable energy and reduce emissions associated with its operations, including the installation of solar panels, the procurement of renewable electricity through Power Purchase Agreements (PPAs), the deployment of battery energy storage systems, and the gradual transition to electric and hybrid vehicles within its airport operations.

Achievement of the SPT has been verified by the external verifier Áddere Solutions, S.C. Annex A to this release includes the "Verification Report of the kgCO₂e/PAX Metric" issued by Áddere Solutions, S.C. for the fiscal year ended December 31, 2025.

OMA remains committed to advancing energy efficiency and decarbonization initiatives across its airports, further strengthening the resilience of its operations.

This report may contain forward-looking information and statements. Forward-looking statements are statements that are not historical facts. These statements are only predictions based on our current information and expectations and projections about future events. Forward-looking statements may be identified by the words "believe," "expect," "anticipate," "target," "estimate," or similar expressions. While OMA's management believes that the expectations reflected in such forward-looking statements are reasonable, investors are cautioned that forward-looking information and statements are subject to various risks and uncertainties, many of which are difficult to predict and are generally beyond the control of OMA, that could cause actual results and developments to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. These risks and uncertainties include, but are not limited to, those discussed in our most recent annual report filed on Form 20-F under the caption "Risk Factors." OMA undertakes no obligation to update publicly its forward-looking statements, whether as a result of new information, future events, or otherwise.

About OMA

Grupo Aeroportuario del Centro Norte, S.A.B. de C.V., known as OMA, operates 13 international airports in nine states of central and northern Mexico. OMA's airports serve Monterrey, Mexico's third largest metropolitan area, the tourist destinations of Acapulco, Mazatlán, and Zihuatanejo, and nine other regional centers and border cities. OMA also operates the NH Collection Hotel inside Terminal 2 of the Mexico City airport and the Hilton Garden Inn at the Monterrey airport. OMA employs over 1,200 people to offer passengers and clients airport and commercial services in facilities. OMA is listed on the Mexican Stock Exchange (OMA) and on the NASDAQ Global Select Market (OMAB). Since December 2022, OMA is part of VINCI Airports, the world's leading private airport operator.

Annex A – Verification Report of the kgCO₂e/PAX Metric

Grupo Aeroportuario del Centro
Norte, S.A.B. de C.V.

DICTAMEN DE VERIFICACIÓN
Periodo de verificación: 01/01/25- 31/12/25

Áddere

DICTAMEN DE VERIFICACIÓN DEL REPORTE DE LA MÉTRICA

kgCO₂e/PAX

El equipo verificador asignado por Áddere Solutions, S.C., quien fue contratado para la verificación de la métrica *kgCO₂e/PAX* del año 2025 calculada conforme al Protocolo de GEI Alcance 2, las Particularidades técnicas y las fórmulas para la aplicación de metodologías para el cálculo de emisiones de gases o compuestos de efecto invernadero publicadas en el DOF 03/09/15, así como al marco de referencia para instrumentos vinculados a la sostenibilidad del año 2022 emitido por **Grupo Aeroportuario del Centro Norte, S.A.B. de C.V.**, cuyo representante legal es *C. Ruffo Pérez Pliego Del Castillo* y basado en la norma internacional *ISO 14064-3:2019 “Especificación con orientación para la validación y verificación de declaraciones sobre gases de efecto invernadero”*, otorga un:

DICTAMEN POSITIVO

De la información contenida en la cuantificación de la Métrica: KgCO₂e/PAX del periodo 01/01/2025 al 31/12/2025, con **0.18 kilogramos de CO₂ equivalente por pasajero** verificados, que se desglosa de la siguiente manera:

Métrica reportada por OMA (kgCO ₂ e/PAX)	Métrica verificada por Áddere (kgCO ₂ e/PAX)	Materialidad (%)
0.18	0.18	0.32

PAX: Pasajero

El proceso de verificación incluyó:

- Revisión documental del inventarios de emisiones de GEI y métrica de los aeropuertos, de sistemas de información, registros de pasajeros y entrevistas remotas con personal responsable de estimación de la métrica durante el mes de abril 2026.
- Verificación de la herramienta de cálculo (power BI) para la estimación de la métrica con cantidad 0.18 kilogramos de CO₂ equivalente por pasajero y materialidad de 0.32 %, bajo un nivel de nivel de aseguramiento limitado.
